Summary:

The Penspen Group commenced business in 1954, becoming a Limited Company in 1970. It provides engineering, project management, operations, maintenance and integrity services to the international oil and gas industries. It wins the Award for the first time for growing exports by 90% to £75m over three years. Over 70% of sales are exports. The Group, headquartered in Richmond, Surrey now operates in four principal regions of the world: Americas, Europe/ North Africa, Middle East/Caspian and Asia Pacific. Penspen's success is founded on its focus on technical leadership and reputation, built on a strong emphasis on staff training and a comprehensive technical offer to clients. The company makes significant contributions to the development of British and International Standards for its industry and actively supports Newcastle University's MSc Pipeline Engineering Course.
