

South-North Pipeline and Spur Extensions

BGE (Northern Ireland) a subsidiary of Bord Gais Eireann

BGE (Northern Ireland) proposed to construct a Natural Gas Transmission Pipeline and associated above ground installations from their land fall terminal at Gormanston Co. Meath to Ballyalbanagh AGI, in Co. Antrim. The pipeline would also make gas available to towns en-route.

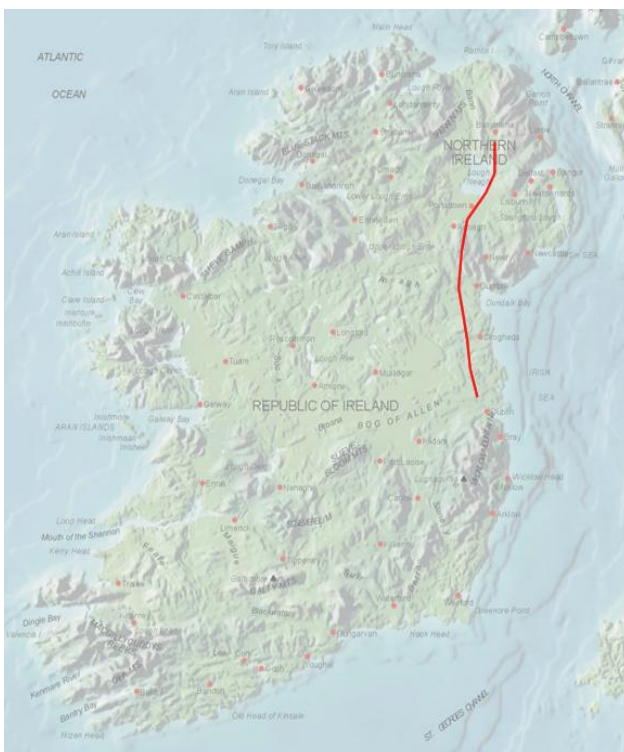

Penspen have been awarded the contract in a joint venture with Kirk, McLure Morton (KMM).

Penspen services included:

- Project Management
- Preliminary and detailed pipeline routing
- Pipeline design
- Environmental studies
- Preparation and submission of all relevant planning applications
- Preparation of construction tender documents and tender evaluation/recommendation
- Construction supervision
- Testing and commissioning supervision

Mourne Mountains

Profile: 150 km of 18" diameter high pressure pipeline plus block valve installations and telecommunications infrastructure

Penspen Contract: Lump Sum

Penspen Manhours: 40,000

Project Value: US \$200 million
