Pressure	3,100 PSIG
Withdrawal	480 MMSCFD

Project: Spindletop Gas Storage Facility

Began: 2004

Location:

Energy company that delivers electricity to 2.7 million residences and businesses in Arkansas, Louisiana, Mississippi and Texas.

Scope:

GreyStar operates the storage facility for Entergy 24 hours a day, 365 days a year, enabling natural gas to be injected, stored and then withdrawn for transport on an as-needed basis to Entergy's nearby Sabine Power Generating Plant.

Equipment:

4 Compressors, 8,000 BHP, electric motor drive
