

Key Data	
Oil	15,000 BPD
Gas	320 MMSCFD

The Repsol Quiriquire field is an example of an older, previously poorly maintained major oilfield which has been managed back to life by GreyStar's outstanding field organization.

Today, the Quiriquire field is considered to be the production center piece of Repsol's significant Venezuelan properties and has reached production levels far beyond expectations.

**Project:** Quiriquire Field  
Operations & Maintenance

**Began:** 1998

**Location:**

Maturin, Monagas state, Venezuela

**Scope:** Production Operations & Maintenance full field Operations and Management

**Accomplishments:**

Field Production has increased from 8,000 in 1998 to 16,500 BPD in 2007.

Equipment Availability 97.7%

Reduced spare parts consumption by 28%

Increased field reliability from 77% to 91%
